

BioXplore at World Environmental Day (WED) National Celebrations in Hebron, 27th June, 2012.

Date: 27th June 2012

Location: Palestinian Authority, Hebron

Summary:

As part of the National celebrations on World Environmental Day (WED), organized by the Ministry of the Environment, GTZ, UNDP, and Non-governmental organizations, BERC represented the Bio-Xplore project to all participants.

The Celebration was carried out in Hebron city, Palestinian Authority. Hundreds of people participated in the event, including the Palestinian Minister of Environment, Hebron Governor, Mayer, representatives from the Ministry of Agriculture, non-governmental organizations, academics, school children, people from the industry sector, and others. Many of the participants visited the Bio-Xplore corner in the celebration and were introduced to the project objectives and were given a short summary about the project activities. Visitors expressed their interest and appreciation of the project objectives and activities.
